

Admonter 
NATURE'S FAVOURITE DESIGNER

DOOR^S

OUR RANGE OF DOORS^S PRODUCTS IS SIMPLY UNFORGETTABLY BEAUTIFUL.
ENTER SPECIAL LIVING SPACES THROUGH ADMONTER NATURAL WOOD DOORS.

THE WELLBEING IN YOUR HOME IS IMPORTANT TO US. ADMONTER DOORS^S ARE MADE OF SUSTAINABLE RAW MATERIALS AND GLUED FORMALDEHYDE-FREE. WOOD FROM SUSTAINABLE FORESTRY AND HIGH QUALITY WORK MAKE THESE DOORS UNIQUE.

Sustainability can be demonstrated.

Sustainability nowadays is a buzzword for many. At Admonter we guarantee it: the PEFC certificate on our products proves that our timber comes from forests where sustainable forestry is practised, where as many trees re-grow as are cut down. But that's not all: instead of rare tropical timbers, our policy

has always been to use native wood species. And in order to preserve natural resources, we convert wood waste into new energy in our in-house heating plant. Those who choose Admonter, also choose nature - In every respect.

Ecologically safe. A good feeling to live in a pleasant environment. The IBR seal of approval awarded by the independent Institute for Building Biology in Rosenheim guarantees the health and environmental safety of our products.

For nature's sake. The wood used to make an Admonter Door comes exclusively from forests where sustainable forestry is practised. It guarantees the conservation of the biodiversity of the fauna and flora and the preservation of the natural environment with high recreational value.

EU-compliant safety. With the CE marking, Admonter confirms that all products comply with the basic health and safety directives of the European Economic Area. Please visit www.admonter.at for details.

*Natural wood doors
made of real wood*

DOORS

WE DO NOT FALL FOR THE SUPPOSED ADVANTAGES OF **FORMALDEHYDE**. THE BONDING MATERIALS WE USE ARE **FREE OF FORMALDEHYDE** MAKING IT **100% HARMLESS TO HEALTH.**

made of FLOOR^smade of ELEMENT^s

FLOOR ^s		Structure	Surface	ELEMENT ^s		Structure	Surface
Oak stone basic		brushed	natural oiled	Reclaimed wood Larch		brushed	natural oiled
Oak grey rustic		cross	natural oiled	Reclaimed wood sunbaked		rough sawn	untreated
Oak rustic		brushed	natural oiled	Reclaimed wood extreme		rough sawn	untreated
Larch basic		brushed	natural oiled	Reclaimed wood hacked H3		rough sawn	untreated
Larch Grigio rustic		antico	natural oiled	Spruce hacked H1		rough sawn	untreated
Oak medium basic		brushed	limed, natural oiled	Stone Pine		alpin	natural oiled
Oak dark basic		brushed	natural oiled				
Oak Salis rustic		cross	natural oiled				
Oak Lapis rustic		cross	natural oiled				

Our doors are made using either FLOOR^s or ELEMENT^s designs. A combination of both versions is not possible.

Grading

basic

Depending on the type of wood, a knotty or lively wood pattern, without sapwood, rift and plain cut, medium growth and wood-specific colour and structural differences, product-specific flaws and cracks incorporated as features.

rustic

Very lively, rustic wood pattern, without sapwood, rift and plain cut, depending on wood species core partially present, strong growth and wood-specific colour and structural differences, product-specific flaws and cracks incorporated as features, cracks and partially not completely closed details are part of the rustic appearance..

Surface

natural oiled

100% natural oils keep the pores of the wood open. Here the health-promoting aspect of the indoor climate comes into its own. When cared for regularly and properly, the surface develops a natural patina of extraordinary resilience.

Structures

antico

3D brushed and finished with additional signs of aging. This results in visual effects with the engaging patina of decades.

cross

Vigorous lengthwise and crosswise brushing lends an attractive appearance to your door.

brushed

Softer wood parts are brushed out. This gives your door a 3-dimensional surface. The sensuality of wood becomes visible and tangible in a unique way.

alpin

Planing combined with strong brushing across the grain gives the boards their special character.
